

GLOBAL. MAGNETIC. FORCE.™

## Technical Data Sheet

### Press Feeders

BUYMAGNETS.com Magnetic Press Feeders deliver lightweight construction with split-second release and low clearance. These permanent magnet, safety-approved Feeder Tools feature positive pickup and fast release. Magnetic Press Feeders reduce work fatigue, increase worker efficiency, and reduce time lost from accidents. Lifting capacities are based on overall length of tool, size of sheets, scale on the sheets, if any, and flatness of sheets at the point of contact with magnet.

### Product Specifications

---

Part No.	Head Diameter	Length	Pull Force	Price
MH-2	2-1"	13	16	\$15.00

- All Measurements are in inches (unless otherwise noted)
- Direction of Magnetization (DOM) is through the thickness unless noted
- Unless otherwise specified, magnets will be furnished in magnetized condition
- Holding forces are approximate. These are average values obtained under laboratory conditions. Size, shape, and material of the test piece may affect actual pull forces
